

DENETIK QUALITY POLICY

As DENETIK Certification;

We provide certification in national and international markets by taking ethical values as reference in the certification sector.

We carry out our work in accordance with legal, regulatory and sectoral rules, including the regions we serve.

We strictly comply with the accreditation rules and fulfill the requirements to become an exemplary organization in our sector in terms of the effective implementation of these rules.

We provide added value to our customers through ethical, effective and value-added audits within the framework of our accreditation rules.

We maintain our impartiality under all circumstances and share our sensitivity with our employees and business stakeholders.

We measure and evaluate our risks and take the necessary precautions to ensure that they do not compromise the integrity of the service we provide.

We take the necessary procedural and technological measures regarding the confidentiality of customer information.

Our employees are our value. We ensure that they are competent in the service we provide with the training we provide and keep their awareness at a high level.

We follow innovations in the certification sector, analyze technical structures, and take the necessary steps to incorporate technological developments into our sector.

We maintain our status as a reliable certification body by constantly improving the quality of service we provide to our customers.

We accept the United Nations sustainability principles and exhibit a management model that references these principles in our work.

We adopt a management style that will ensure continuous improvement in the standards we provide, our accreditation and legal obligations, the adequacy and competence of our employees, our risks, and our technological structure, and we allocate the necessary resources in this regard.
